Marasli 1 str, Athens Greece

having **26 years** of experience  
in providing specialised high quality dental care  
our top priority is  
**your smile**

our entire team is dedicated  
to provide you with the personalised gentle care  
that you deserve.

we believe the success of treatment can be positively  
influenced by a trusting and collaborative

**patient-to-doctor relationship**

in which we *listen* to your concerns,  
*answer* your questions and  
*work* closely with you and your healthcare providers

part of our commitment to serving our patients includes providing information that helps them to make more informed decisions about their oral needs.

in order to achieve that, we take under consideration your needs and preferences, a detailed medical and dental history is completed and a clinical examination is performed.

having collected all the above data, we will present you **an individualised treatment plan** aiming to provide you with an excellent aesthetic and functional result.

our philosophy

...

our *goal...*

is to improve the confidence of your patients  
through exceptional dental care

we make sure teeth  
not only function well but look great too.

we exceed patients expectations

we want you to smile wide and bright

*whichever your needs are,  
you have come to the right place*

for us, the longevity of the dental procedures that we offer is the most important factor.

for that reason, we use only techniques and materials that have demonstrated an excellent clinical performance over time

in addition, our well organised recall system will help us prevent or detect any possible future dental problem that may arise.

focus on the prevention
